Group enterprise cloud manufacturing model and standards

Group enterprise cloud manufacturing key technology research

Typical group enterprise cloud services platform development

Aerospace industry group enterprise demonstration

Model

Standards

Cloud-oriented manufacturing and 3D printing on-demand usage of cloud services technology

Cloud manufacturing credible and security Big-Data in cloud

Multi-tenant cloud on-demand usage

capabilities and dynamic collaborative service

Group manufacturing enterprise cloud services platform

CASIC cloud manufacturing applications

CASC cloud manufacturing applications

3D printing and cloud manufacturing integration application demonstration

Multi-tenant cloud manufacturing resources on-demand usage application demonstration

Manufacturing capacity services dynamic collaborative applications demonstration

Big-Data in cloud manufacturing application demonstration
